Statement

Upon the advice of my doctor and after much thought and meditation we have decided to sell our Shorthorns. The decision was made suddenly therefore the herd is presented in the condition in which it is ordinarily kept with no extra fitting.

The herd has been maintained on a simple practical scale along with all the other activities necessary to operate a livestock farm. We are of the firm conviction that a good Shorthorn is red, white or roan, and must have scale and substance as well as quality and smoothness. No cow is kept in the herd unless she produces a calf every twelve months. She must raise her calf. A careful study of the pedigrees will show they are a prolific lot of cattle.

We are proud of our herd and most humbly submit them for your approval.

McLay Bros.
John M. McLay

Brigand Braggart, our junior herd sire. His dam's sire is the Perth Champion Calrossie Mercury. His sire, Beaufort Brigand, former herd sire for S. J. O'Bryan, Lake Villa, Ill., left a lasting impression in that herd. The grand dam, Cluny Rosewood 33d, is the dam of Edellyn Command 2000000. Brigand Braggart is a very sappy rugged bull with a breeding bull's head and full quartered with smoothness throughout. Have refused many attractive offers in four figures for him.

Standard Guarantee

OF AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller with three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals are sold to comply with the laws regulating Tuberculosis and Bangs Disease of the state or country into which they may be shipped.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed clean abortion blood test within 30 days prior to the sale, and have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
